

Product data sheet for uvex bamboo Twinflex

EN 388:2016 + A1:2018

4 X 4 1 D

MADE IN GERMANY 

Manufacturer address

UVEX SAFETY Gloves GmbH & Co. KG
 Elso-Klöver-Str. 6
 D-21337 Lüneburg
 uvex-safety.de

The patented Bamboo TwinFlex® technology combines the best of both worlds in one fine 18-gauge cut protection glove (Cut Level D): On the inside of the glove: Wearers experience noticeable comfort for their skin thanks to the natural bamboo fibres. The smooth fit and high moisture absorption with a rapid action provides long-lasting comfort and high wearer acceptance. With a flexible fit thanks to the natural bamboo fibre, the glove adapts precisely to fit the shape of the hand within 3 to 5 minutes of wearing. Keep yourself safe from external hazards: High-performance fibres offer a high level of protection against abrasion and cut hazards. The additional uvex protexxion zone in the area between the thumb and index finger provides double the abrasion resistance (200%) compared to the inside of the glove to increase its service life/durability. Thanks to the Xtra-Grip aqua-polymer foam coating, the Bamboo TwinFlex® D xg offers excellent grip in dry and slightly damp/oily conditions.

Characteristics

- For use with touchscreens
- Good grip
- Very good cutting protection
- Very good breathability
- Excellent abrasion resistance
- Long service life
- Good fit

Suitability for industrial work environments

- Suitable for dry and slightly damp work environments

Material number 60090

Sizes 6 - 12

Standard ISO 21420:2020,
 EN 388:2016 + A1:2018,
 EN 407:2020

Performance class in accordance with EN 388 4 X 4 1 D

Outer shoe material Bamboo viscose, High-performance polyethylene (HPE), Steel, polyamide (PA), Elastane

Coating Aqua-polymer Xtra Grip foam

Coating surface area Palm, Fingers

Type	With reinforced thumb crotch, With knitted cuff
Colour	Green
